

Environmental Policy Statement

Valiant Design believe that businesses are responsible for achieving good environmental practice and operating in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods. It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all, it is also a matter of delivering on our duty of care towards future generations.

Our policy is to:

- Wholly support and comply with or exceed the requirements of current environmental legislation and codes of practice.
- Minimise our waste and then reuse or recycle as much of it as possible.
- Minimise energy and water usage in our buildings, vehicles and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- As far as possible purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce in advance.
- Ensure that all employees understand our environmental policy and conform to the high standards it requires.
- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned.
- Update our Environmental Policy annually in consultation with staff, associates and customers.

Valiant Design has identified a number of key areas where our direct action has minimised our environmental impact:

- All paper, cans and bottles are recycled.
- All cleaning products and consumables are purchased for their environmental merit where possible.
- Laser inkjet cartridges are recycled through a charity scheme. CDs and packaging are recycled through a supplier's scheme.
- Paper specification for our print work is based upon chlorine-free, sustainable forests or recycled pulp wherever possible.
- Our print suppliers are chosen on their environmental policies and are some of the greenest in Europe, exceeding ISO14001 and FSC certified.

Valiant Design will continue to monitor its practices and implement policies and schemes to minimise our impact on the environment. All employees are informed of any changes to our environmental policy and practices.

Signed

T.S. Keeble
Director
